**PROFILE** VTT Technical Research Centre of Finland is a globally networked multitechnological contract research organization. VTT's IP Business takes care of VTT's technology transfer and commercialization activities. VTT's headquarters are in Espoo but there are several offices nationwide. Our international offices are in Brussels, Silicon Valley, São Paulo, St Petersburg, Shanghai and Seoul. VTT is a multidisciplinary organization with covering various fields of technology. VTT focuses on contract research with commercialization of technology in a core role. Our TT office manages IP-related matters. Inventions and software are VTT's IPR-property, protected by patents. VTT has 20 spinoff companies.

**What we offer:**

VTT has an extensive IP portfolio covering technologies and methods within the following fields:

- Biotechnology
- Basic industry and environment
- Electronics
- Software

**What we are looking for:**

We are looking for business partners who are interested in licencing our technologies. We are also looking for business angels and investors interested in investing in our new spinoff companies.

**Target industries:**

- Electronics and high-tech
- ICT - Information and communication technology
- Telecom
- Mobile
- Research and science
- Nanotechnology
- Biotechnology
- Chemistry
- Energy and utilities
- Building and construction
- Logistics and transportation
- Forestry and agriculture
- Healthcare and medical

**Who are we interested to meet with:**

Companies who are interested in licencing our technologies.
